

for smooth bump free skin

FOR MEN
& WOMEN

-  Alleviates ingrown hairs and leaves skin smooth & bump-free.
-  Quickly relieves discomfort and itchiness associated with in-grown hairs.

INGROWN HAIR

After shaving or waxing, some hairs fail to penetrate through the surface of the skin and curl inside the follicle causing irritation and often infection. These are known as **ingrown hairs** which can be painful and unsightly.

Active Ingredients

Anasensyl

- Provides immediate **calming** and **relief** to skin.

Salicylic Acid

- Causes epidermal cells to shed, thereby preventing clogging of pores.
- Has strong **anti-inflammatory** properties which reduces bump size.

Triclosan

- Works inside pores to **unclog** & prevent formation of "bumps".

Transcutol

- Aids active ingredients in **penetrating** skin so that they are more effective and can act faster.

Glycerine

- **Hydrating**, reduces dryness & irritation.
- Improves overall skin texture & tone.
